- English

FAIZAN JOGIYAT

WEB DEVELOPER

PROFILE

I'm a passionate and adaptable web developer with the ability to recreate designs precisely using web technologies. I excel at cloning exact copies of designs and I am eager to contribute my skills to projects

PROJECTS

Drum Kit
- Created a drum kit using HTML, CSS, and JavaScript, with distinct audio assigned to each button.
- https://github.com/faizanjogiyat/JS_Drum_Kit

Resturant Landing Page
- Designed a restaurant landing page ,incorporating animations to enhance user experience.
- https://github.com/faizanjogiyat/Them_wagon_page

Color Flipper
- I've created a color flipper web app where pressing a button results in random background color changes.
- https://github.com/faizanjogiyat/Color-Filipper

Calculator Application
- Developed a basic calculator application using JavaScript and HTML capable of performing arithmetic operations such as addition, subtraction, division, and multiplication.
- https://github.com/faizanjogiyat/Calculator
